Diameter: 13 cm (5.1")

Weight: 2.25 kg

Description

Hand-lathed in laminated tulipwood, weighted with steel and mounted on a cork base, The Turner's Stop has a domed, reeded body and a characteristic flared disc top.

The Turner's Stop is finished in beeswax as standard, but we can quote to have it finished in any way you'd like. Just get in touch with your ideas!

The Turner's Stop is a celebration of natural materials and time-honoured skills of the past. Turning on a lathe requires exceptional expertise - fraught with danger, it's a skill that cabinetmakers have outsourced to professional turners for centuries.
